Premier manufactures an almost unlimited size range in a wide variety of styles.

### Products Include:

Bags	Sheets
Sleeves	Tubing
Multi-Pocket Bags	Bags on a Roll

### Specialty Products:

- \* **Laminations of Films to Foam and Bubble for increased material strength and puncture resistance.**
- \* **Colors and printed materials for product identifications and instructions.**
- \* **Anti-Static additives for Electronics, Vapor Corrosive Inhibitors for sensitive metals.**
- \* **Metalized laminations to create a reflective surface for increased thermal properties.**

## Premier Protective Packaging

Premier specializes in the production of custom designed protective packaging. We strive to provide cost effective protective packaging solutions for endless applications that are prone to damage and abrasion during the shipping process.

**We routinely make customers samples to ensure the proper product for each packaging solution.**

## Our Products are Manufactured from:

### Polyethylene Foam:

1/32", 1/16", 3/32", 1/16", 3/32", 1/8", 3/16", 1/4", 3/8" & 1/2" thickness. PE Foam protects products from impact damage, marring and scratching. ♻️

### Polypropylene Foam:

1/20", 1/16", 3/32", 1/8", 1/4" & 1/2" thickness. Similar to PE Foam but with higher service temperature, lower slip, and better insulation properties. ♻️

### Polyethylene Bubble:

1/8", 3/16", 5/16" and 1/2" thickness. 3rd Web and Anti-Static options available. Bubble protects products from impact damage and is cost effective. ♻️

### Spun Bond Polypropylene:

This non-woven fabric-like material is made from 1.0, 1.5, 2.0 ounce weights. Ideal for surface protection, protects against scratching or marring when cushioning is not required. ♻️

♻️ Reusable & Recyclable

# Premier's Stock Bags

*We are a Specialty convertor and that's our focus!  
We manufacture high quality protective packaging products, achieve on time delivery and total Customer satisfaction.*
